

Horizon Capital Management, Inc.

SEMI-ANNUAL REPORT FEBRUARY 28, 2011

HCM Freedom Fund

33 Whitehall Street, 10th Floor
New York, New York 10004

(800) 851-0511

Dear Shareholders,

This Semi-Annual Report for the HCM Freedom Fund (the "Fund") covers the period from September 1, 2010 to February 28, 2011 (the "Semi-Annual Period"). Horizon Capital Management, Inc. ("HCM") serves as the sub-advisor to the Fund and seeks long term capital appreciation with lower volatility than the overall market.

HCM employs a dynamic asset allocation strategy and has great flexibility in deciding in what to invest and when to invest, and may invest in a broad range of equity and fixed income securities, both domestically and internationally. HCM believes that limiting losses is as important to building capital as maximizing gains and manages risk by exiting positions when HCM believes that potential portfolio gains are not sufficient to justify the potential risk of loss. HCM attempts to identify and profit from market trends, making long investments in areas of the market that have risen somewhat and appear to offer additional upside and short investments in areas of the market which have begun to decline and appear likely to decline further. HCM attempts to identify changing market conditions based on proprietary technical analysis of trends, relative strength of various sectors of the markets as well as seasonal considerations. When HCM has not identified to its satisfaction areas of the market in which it feels comfortable investing, whether long or short, HCM may invest portions or all of the Fund's assets in cash or cash equivalents for capital preservation. HCM typically chooses investment options from among market categories or investment vehicles which represent pools of securities, including major market indexes, more narrowly defined market sectors, exchange traded funds ("ETFs"), and mutual funds, among other options.

The Fund's portfolio is positioned in response to movements by particular indexes, market segments or even particular securities in an attempt to participate in a developing trend. HCM may attempt to anticipate market moves and initiate appropriate action in advance of actual market movements. The Fund's portfolio may be traded frequently as HCM attempts to position the portfolio in line with its expectations for market movements. The Fund's portfolio turnover may vary substantially from year to year since portfolio adjustments are made when conditions affecting relevant markets, particular market segments or individual issues warrant such action, and may be significant. In addition, portfolio turnover may also be affected by sales of portfolio securities necessary to meet cash requirements for redemptions of shares. Buying and selling securities involves some expense to the Fund, such as broker commissions and other transaction costs, and a high turnover rate in any year will result in payment by the Fund of above-average transaction costs and could result in the payment by shareholders of above-average amounts of taxes on realized investment gains.

HCM has broad discretion in deciding in what to invest. Unlike managers who attempt to limit risk by limiting their investment options, HCM will attempt to manage risk by alternating between investments in equity and fixed income securities, on the one hand, and defensive, cash positions on the other. In general, the Fund's dynamic asset allocation strategy gives HCM unlimited freedom with regard to the Fund's asset allocation and may result in the Fund investing in a broad range of equity securities of domestic and foreign companies with a wide range of market capitalizations, various market sectors and asset classes, as well as fixed income securities of varying types. The Fund may invest in equity securities of domestic issuers, equity securities of foreign issuers, whether directly or indirectly through sponsored or nonsponsored American Depositary Receipts ("ADRs"), ETFs, other investment companies and foreign currencies. ADRs are equity securities traded on U.S. exchanges that evidence ownership of foreign equities. ETFs are derivative securities whose value tracks a well-known securities index or basket of securities. Additionally, the equity securities in which the Fund may invest may be of varying market capitalizations, and may include large-, medium- and small-capitalization companies. The Fund may invest in fixed income securities directly or indirectly through ETFs and other investment companies. These fixed-income securities may have varying maturities (e.g., long-term, intermediate or short-term) and credit qualities (e.g., investment grade or non-investment grade). The terms "investment grade" and "non-investment grade" refer to the credit quality of fixed-income securities as established by a recognized rating agency, such as S&P, Moody's or Fitch. Securities that are rated lower than investment grade, high yield securities or "junk bonds," generally provide high income in an effort to compensate investors for their higher risk of default, which is the failure to make required interest or principal payments. The Fund may invest without limit in high yield securities.

The Fund may also make both "long" and "short" investments and may use derivative instruments primarily including swaps and futures which enable the Fund to seek greater exposure to target investments than would be available by purchasing only traditional equity and fixed income securities. The Fund also may invest in options. The use of these derivative securities produces economically "leveraged" investment results. Leveraging generates returns that are more pronounced, both positively and negatively, than what would be generated on the invested capital without leverage, thus changing small market movements into larger changes in the value of the investments. The Fund's dynamic asset allocation strategy may result in the investment of a large portion or all of the assets of the Fund in cash or cash equivalents at any given time to provide security of principal, current income and liquidity. To earn income on available cash, a large portion or all of the

assets of the Fund may be invested in high quality, U.S. dollar denominated short-term obligations issued or guaranteed by the U.S. government, its agencies or instrumentalities and repurchase agreements that are fully collateralized by such obligations.

During the Semi-Annual Period the equity markets continued and sustained the bull rally after a small pullback during the summer months of 2010. On the fixed income side, markets reacted negatively to issues both domestically and globally. Currencies were volatile; treasury rates slightly increased causing poor performance in bond funds. Gold was another strong performing sector during the time period and continues to perform well along with other precious metals such as copper, silver and platinum. Additionally, other commodities such as oil, grains, and livestock have performed very well for investors.

During the Semi-Annual Period the Fund returned 2.82% on a total return basis. During the same period the DJ Industrial Average Index returned 23.64%, the S&P 500 Index returned 27.72% and the NASDAQ-100 Index returned 33.53%.

As always, we thank you for using the Direxion Funds and we look forward to our mutual success.

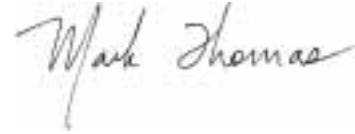

Best Regards,

Daniel O' Neill

The performance data quoted represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data quoted. To obtain performance data current to the most recent month-end, please call, toll-free, 1-800-851-0511 or visit www.direxionfunds.com.

The views in this report were those of the Adviser as of February 28, 2011 and may not reflect their views on the date of this report is first published or anytime thereafter. These views are intended to assist shareholders of the Fund in understanding their investments in the Fund and do not constitute investment advice.

The total annual fund operating expense ratio of the HCM Freedom Fund, net of any fee, waivers or expense reimbursements is 2.79%.*

An investment in any of the Direxion Funds is subject to a number of risks that could affect the value of its shares. It is important that investors closely review and understand these risks before making an investment. An investor should consider the investment objectives, risks, charges and expenses of the Direxion Funds carefully before investing. The prospectus contains this and other information about the Direxion Funds. To obtain a prospectus, please call the Direxion Funds at 1 800-851-0511. The prospectus should be read carefully before investing.

**Distributed by: Rafferty Capital Markets, LLC
Date of First Use: April 29, 2011**

*** The total annual fund operating expense ratios include Acquired Fund Fees and Expenses, indirect fees and expenses that the Funds incur that are required to be disclosed. Without Acquired Fund Fees and Expenses, total annual operating expense ratio would be 2.35%.**

Expense Example

February 28, 2011 (Unaudited)

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, reinvested dividends, or other distributions; redemption fees; and exchange fees; and (2) ongoing costs, including management fees; distribution (12b-1) and/or service fees; and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held the entire period (September 1, 2010 — February 28, 2011).

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on a Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Funds and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expense Example Tables
February 28, 2011 (Unaudited)

	<u>Expense Ratio¹</u>	<u>Beginning Account Value September 1, 2010</u>	<u>Ending Account Value February 28, 2011</u>	<u>Expenses Paid During Period²</u>
HCM Freedom Fund				
Based on actual fund return	2.35%	\$1,000.00	\$1,028.20	\$11.82
Based on hypothetical 5% return	2.35%	1,000.00	1,013.14	11.73

¹ Annualized

² Expenses are equal to the Fund's annualized expense ratio, multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year/period, then divided by 365.

Year ended August 31, 2006	18.91	0.40	(1.08)	(0.68)	(0.12)	—	(0.12)	18.11	(3.61%)	53,753	—	—	2.22%	2.12%	2.14%	3,065%		

¹ Annualized.

² Not annualized.

³ Net investment income (loss) per share represents net investment income (loss) divided by the daily average shares of beneficial interest outstanding throughout each period.

⁴ All returns reflect reinvested dividends, if any, but do not reflect the impact of taxes.

⁵ Portfolio turnover is calculated without regard to short-term securities having a maturity of less than one year. Investments in options, swaps, and futures contracts and repurchase agreements are deemed short-term securities. The Fund's aggressive to take advantage of anticipated changes in market conditions.

Expense Example

February 28, 2011 (Unaudited)

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, reinvested dividends, or other distributions; redemption fees; and exchange fees; and (2) ongoing costs, including management fees; distribution (12b-1) and/or service fees; and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held the entire period (September 1, 2010 — February 28, 2011).

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on a Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Funds and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

¹ Annualized.

² Not annualized.

³ Net investment income (loss) per share represents net investment income (loss) divided by the daily average shares of beneficial interest outstanding throughout each period.

⁴ All returns reflect reinvested dividends, if any, but do not reflect the impact of taxes.

⁵ Portfolio turnover is calculated without regard to short-term securities having a maturity of less than one year. Investments in options, swaps, and futures contracts and repurchase agreements are deemed short-term securities. The Fund's aggressive to take advantage of anticipated changes in market conditions.

⁶ Amount is less than \$0.01 per share.

Investments in options, swaps, and futures contracts and repurchase agreements are deemed short-term securities. The Fund's aggressive to take advantage of anticipated changes in market conditions.

Direxion Funds
NOTES TO THE FINANCIAL STATEMENTS
February 28, 2011 (Unaudited)

1. ORGANIZATION

Direxion Funds (the "Trust") was organized as a Massachusetts Business Trust on June 6, 1997 and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company issuing its shares in series, each series representing a distinct portfolio with its own investment objective and policies. The Trust currently has 32 series of which 4 are included in this report, HCM Freedom Fund, Spectrum Select Alternative Fund, Spectrum Global Perspective Fund and Spectrum Equity Opportunity Fund (each a "Fund" and collectively, the "Funds"). Each Fund is a "non-diversified" series of the Trust pursuant to the 1940 Act.

The HCM Freedom Fund's objective is long-term capital appreciation with lower volatility than the overall market by employing a dynamic asset allocation strategy. The HCM Freedom Fund has great flexibility in deciding what to invest and when to invest, and may invest in a broad range of equity and fixed income securities, both domestically and internationally, as well as derivative instruments of these securities.

The Spectrum Select Alternative Fund seeks a moderate total rate of return (income plus capital appreciation) on an annual basis, by investing primarily in any combination of equity and fixed-income securities based on market conditions, trends and expectations. The Spectrum Global Perspective Fund seeks a high total rate of return (income from short-term trading plus capital appreciation) on an annual basis by investing in equity securities of foreign issuers either directly or indirectly through American Depository Receipts (ADRs), ETFs, foreign currencies, other investment companies and derivative instruments. The Spectrum Equity Opportunity Fund seeks a high total rate of return (income from short-term trading plus capital appreciation) on an annual basis by investing either directly in securities of domestic and foreign issuers or indirectly through ADRs, ETFs, other investment companies and derivative instruments.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements. These policies are in conformity with U.S. generally accepted accounting principles ("GAAP").

a) Investment Valuation – The Net Asset Value ("NAV") of each Fund is determined daily, Monday through Friday, as of the close of regular trading on the New York Stock Exchange ("NYSE"), each day the NYSE is open for business. The value of all portfolio securities and other assets held by a Fund will be determined as of the time a Fund calculates its NAV, 4:00 p.m. Eastern Time ("Valuation Time"). Equity securities and exchange-traded funds are valued at their last sales price, or if not available, at the average of the last bid and ask prices. Investments in open-end mutual funds are valued at their respective quoted net asset values on the valuation dates. Futures are valued at the settlement price established on the exchange on which they are traded, if that settlement price reflects trading prior to the Valuation Time. If the settlement price established by the exchange reflects trading after the Valuation Time, then the last sales price prior to Valuation Time will be used. Over-the-counter securities are valued at the average of the last bid and ask prices. Securities primarily traded on the NASDAQ National Market are valued using the NASDAQ Official Closing Price. Swaps are valued based upon prices from third party vendor models or quotations from market makers to the extent available. Short-term debt securities with a maturity of 60 days or less and money market securities are valued using the amortized cost method. Other debt securities are valued by using the mean prices provided by the Fund's pricing service or, if such services are unavailable, by a pricing matrix method. Securities for which reliable market quotations are not readily available, the Funds' pricing service does not provide a valuation for such securities, the Fund's pricing service provides valuation that in the judgment of Rafferty Asset Management, LLC (the "Adviser") does not represent fair value, or the Fund or Adviser believes the market price is stale will be fair valued as determined by the Adviser under the supervision of the Board of Trustees.

b) Repurchase Agreements – Each Fund may enter into repurchase agreements with institutions that are members of the Federal Reserve System or securities dealers who are members of a national securities exchange or are primary dealers in U.S. government securities. In connection with transactions in repurchase agreements, it is the Trust's policy that the Fund

receives, as collateral, cash and/or securities (primarily U.S. government securities) whose market value, including accrued interest, at all times will be at least equal to 100% of the amount invested by the Fund in each repurchase agreement. If the seller defaults, and the value of the collateral declines, realization of the collateral by the Fund may be delayed or limited. The Funds were not invested in repurchase agreements at February 28, 2011.

c) Swap Contracts – Each Fund may enter into equity swap contracts. Standard equity swap contracts are between two parties that agree to exchange the returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments. The gross amount to be exchanged is calculated with respect to a “notional amount” (i.e. the return on or increase in value of a particular dollar amount invested in a “basket” of securities representing a particular index or industry sector). Most equity swap agreements entered into by the Funds calculate the obligations of the parties on a “net basis”. Consequently, a Fund’s current obligations under a swap agreement generally will be equal to the net amount to be paid or received under the agreement based on the relative value of the positions held by each party. The Fund’s obligations are accrued daily (offset by any amounts owed to the Fund.)

In a “long” equity swap agreement, the counterparty will generally agree to pay the Fund the amount, if any, by which the notional amount of swap contract would have increased in value if the Funds had been invested in the particular securities, plus dividends that would have been received on those securities. The Fund will agree to pay the counterparty a floating rate of interest on the notional amount of the swap contract plus the amount, if any, by which the notional amount would have decreased in value had it been invested in such securities plus, in certain instances, commissions or trading spreads on the notional amounts. Thus, the return on the swap contract should be the gain or loss on the notional amount plus dividends on the securities less the interest paid by the Fund on the notional amount. Payments may be made at the conclusion of the contract or periodically during its term. Swap contracts do not include the delivery of securities. The net amount of the excess, if any, of the Fund’s obligations over its entitlement with respect to each swap is accrued on a daily basis and an amount of cash or liquid assets, having an aggregate net asset value at least equal to such accrued excess is maintained in a segregated account. Until a swap contract is settled in cash, the gain or loss on the notional amount plus dividends on the securities less the interest paid by the Fund on the notional amount are recorded as “unrealized gains or losses on swaps” and when cash is exchanged, the gain or loss is recorded as “realized gains or losses on swaps”. Swap contracts are collateralized by the securities and cash of each particular Fund.

Each Fund may enter into swap contracts that provide the opposite return of the particular benchmark or security (“short” the index or security). The operations are similar to that of the swaps disclosed above except that the counterparty pays interest to the Fund on the notional amount outstanding and the dividends on the underlying securities reduce the return of the swap. These amounts are netted with any unrealized appreciation or depreciation to determine the value of the swap. The Funds will typically enter into equity swap agreements in instances where the Adviser believes that it may be more cost effective or practical than buying a security or the securities represented by a particular index.

d) Short Positions – Each Fund may engage in short sale transactions. For financial statement purposes, an amount equal to the settlement amount is included in the Statement of Assets and Liabilities as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current value of the short position. Subsequent fluctuations in the market prices of short positions may require purchasing the securities at prices which may differ from the market value reflected on the Statement of Assets and Liabilities. The Fund is liable to the buyer for any dividends payable on securities while those securities are in a short position. As collateral for its short positions, the Fund is required under the 1940 Act to maintain assets consisting of cash, cash equivalents or liquid securities equal to the market value of the securities sold short. This collateral is required to be adjusted daily. The Funds were not invested in short positions at February 28, 2011.

e) Stock Index Futures Contracts and Options on Futures Contract – Each Fund may purchase and sell stock index futures contracts and options on such futures contracts. A Fund may use futures contracts to gain exposure to, or hedge against changes in the value of equities, interest rates or foreign countries. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as “variation margin” and are recorded by the Fund as unrealized gains and losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the

contract at the time it was opened and the value at the time it was closed. As collateral for futures contracts, the Fund is required under the 1940 Act to maintain assets consisting of cash, cash equivalents or liquid securities. This collateral is required to be adjusted daily to reflect the market value of the purchase obligation for long futures contracts or the market value of the instrument underlying the contract, but not less than the market price at which the futures contract was established, for short futures contracts. The Funds were not invested in options on futures contracts at February 28, 2011.

f) Risks of Options, Futures Contracts, Options on Futures Contracts and Short Positions – The risks inherent in the use of options, futures contracts, options on futures contracts and short positions include 1) adverse changes in the value of such instruments; 2) imperfect correlation between the price of options and futures contracts and options thereon and movements in the price of the underlying securities, index or futures contracts; 3) the possible absence of a liquid secondary market for any particular instrument at any time; 4) the possible need to defer closing out certain positions to avoid adverse tax consequences; and 5) the possible nonperformance by the counterparty under the terms of the contract. The Funds designate all cash, cash equivalents and liquid securities as collateral for written options, futures contracts, options on futures contracts and short positions.

g) Risks of Investing in Foreign Securities – The Spectrum Global Perspective and the Spectrum Equity Opportunity Funds may invest in foreign securities. Investments in foreign securities involve greater risks than investing in domestic securities. As a result, the Fund’s returns and net asset values may be affected to a large degree by fluctuations in currency exchange rates, political, diplomatic or economic conditions and regulatory requirements in other countries. The laws and accounting, auditing, and financial reporting standards in foreign countries typically are not as strict as they are in the U.S., and there may be less public information available about foreign companies.

h) Security Transactions – Investment transactions are recorded on the trade date. The Funds determine the gain or loss realized from the investment transactions by comparing the identified cost, which is the same basis used for federal income tax purposes, with the net sales proceeds.

i) Federal Income Taxes – Each Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code necessary to qualify as a regulated investment company and to make the requisite distributions of income and capital gains to its shareholders sufficient to relieve it from all or substantially all federal income. No provision for federal income taxes has been made.

j) Income and Expenses – Dividend income is recorded on the ex-dividend date. Interest income, including amortization of premium and discount, and dividends received from money market funds, is recognized on an accrual basis. Expenses are charged to the Funds daily. Expenses are computed based on each Fund’s respective daily net assets. For additional discussion on expenses refer to Note 5.

k) Distributions to Shareholders – Each Fund generally pays dividends from net investment income and distributes net realized capital gains, if any, at least annually. Income and capital gain distributions are determined in accordance with income tax regulations which may differ from GAAP. Distributions to shareholders are recorded on the ex-dividend date.

The tax character of distributions for the Funds during the six months ended February 28, 2011 and the year August 31, 2010 were as follows:

	HCM Freedom Fund	
	Six Months Ended February 28, 2011 (Unaudited)	Year Ended August 31, 2010
Distributions paid from:		
Ordinary Income	\$862,997	\$1,474,611
Long-Term Capital Gains	—	—
Return of Capital	—	—
Total Distributions paid	<u>\$862,997</u>	<u>\$1,474,611</u>

	Spectrum Select Alternative Fund		Spectrum Global Perspective Fund		Spectrum Equity Opportunity Fund	
	Six Months Ended February 28, 2011 (Unaudited)	Year Ended August 31, 2010	Six Months Ended February 28, 2011 (Unaudited)	Year Ended August 31, 2010	Six Months Ended February 28, 2011 (Unaudited)	Year Ended August 31, 2010
Distributions paid from:						
Ordinary Income	\$1,922,936	\$1,362,145	\$—	\$ —	\$—	\$ —
Long-Term Capital Gains	30,078	—	—	—	—	—
Return of Capital	—	—	—	8,295	—	68,651
Total Distributions paid	<u>\$1,953,014</u>	<u>\$1,362,145</u>	<u>\$—</u>	<u>\$8,295</u>	<u>\$—</u>	<u>\$68,651</u>

The Funds designated as long-term capital gain dividend, pursuant to Internal Revenue Code Section 852(b)(3), the amount necessary to reduce the earnings and profits of the Fund related to net capital gain to zero for the tax year ended August 31, 2010. The Funds may utilize earnings and profits distributed to shareholders on redemption of shares as part of the dividend paid deduction.

As of August 31, 2010, the components of distributable earnings of the Funds on a tax basis were as follows:

	HCM Freedom Fund	Spectrum Select Alternative Fund	Spectrum Global Perspective Fund	Spectrum Equity Opportunity Fund
Net unrealized appreciation/(depreciation)	<u>\$ 417,371</u>	<u>\$ 789,421</u>	<u>\$ (847,091)</u>	<u>\$ —</u>
Undistributed ordinary income	520,163	1,108,592	—	—
Undistributed long-term capital gain	—	—	—	—
Total distributable earnings	<u>520,163</u>	<u>1,108,592</u>	<u>—</u>	<u>—</u>
Other accumulated gain/(loss)	(19,856,222)	(73,499)	(19,941,433)	(3,392,429)
Total accumulated earnings/(loss)	<u>\$(18,918,688)</u>	<u>\$1,824,514</u>	<u>\$(20,788,524)</u>	<u>\$(3,392,429)</u>

The difference between book cost of investments and tax cost of investments is attributable primarily to the tax deferral of losses on wash sales. Other accumulated gain/ (loss) is generally comprised of capital loss carryforwards, post-October capital loss deferrals and/or unrealized gain/ (loss) on derivative positions.

The cost basis for investments for federal income tax purposes as of February 28, 2011 was as follows:

	HCM Freedom Fund	Spectrum Select Alternative Fund	Spectrum Global Perspective Fund	Spectrum Equity Opportunity Fund
Tax cost of investments	\$27,349,020	\$55,703,611	\$59,536,688	\$17,933,506
Gross unrealized appreciation	393,003	1,361,672	347,804	413,904
Gross unrealized depreciation	(1,230)	(7,325)	(1,146,974)	(77,638)
Net unrealized appreciation/(depreciation)	<u>\$ 391,773</u>	<u>\$ 1,354,347</u>	<u>\$ (799,170)</u>	<u>\$ 336,266</u>

In order to meet certain excise tax distribution requirements, the Funds are required to measure and distribute annually, net capital gains realized during a twelve-month period ending October 31. In connection with this, the Funds are permitted for tax purposes to defer into their next fiscal year any net capital losses incurred between November 1 and the end of their fiscal year, August 31, 2010.

At August 31, 2010, no funds deferred, on a tax basis, post-October losses.

At August 31, 2010, the following funds had capital loss carryforwards on a tax basis of:

	Expires					Total
	<u>8/31/2014</u>	<u>8/31/2015</u>	<u>8/31/2016</u>	<u>8/31/2017</u>	<u>8/31/2018</u>	
HCM Freedom Fund	\$7,134,932	\$5,679,579	\$1,637,612	\$ 5,404,099	\$ —	\$19,856,222
Spectrum Select Alternative Fund	—	—	—	—	—	—
Spectrum Global Perspective Fund	—	—	—	14,988,713	1,648,038	16,636,751
Spectrum Equity Opportunity Fund	—	—	—	3,256,865	—	3,256,865
Capital Loss Utilized:	<u>8/31/2010</u>					
HCM Freedom Fund	\$1,707,285					
Spectrum Select Alternative Fund	3,209,391					
Spectrum Equity Opportunity Fund	1,167,325					

To the extent the Funds realize future net capital gains, those gains will be offset by any unused capital loss carryover.

The Funds follow authoritative financial reporting rules regarding recognition and measurement of tax positions taken or expected to be taken on a tax return. The Funds have reviewed all open tax years and concluded that there is no effect to the Funds' financial positions or results of operations and no tax liability resulting from unrecognized tax benefits relating to uncertain income tax position take or expected to be taken on a tax return. Open tax years are those years that are open for examination by the relevant income taxing authority. As of February 28, 2011, open Federal and state income tax years include the tax years ended August 31, 2008, August 31, 2009 and August 31, 2010. The Funds have no examination in progress. The Funds are also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax expense will significantly change in twelve months.

l) Credit Facility – U.S. Bank, N.A. has made available to Funds, with the exception of the HCM Freedom Fund, a credit facility pursuant to a Line of Credit Agreement ("Line of Credit") for meeting redemption requests. The Funds did not utilize the Line of Credit during the year ended February 28, 2011:

	<u>Available Borrowing (Lesser of 33 1/3% of Fund's Net Assets or)</u>	<u>Outstanding Balance as of February 28, 2011</u>	<u>Maximum Amount Outstanding during the Six Months Ended February 28, 2011</u>	<u>Average Daily Balance</u>	<u>Interest Expense</u>	<u>Borrowings Charged At</u>
Spectrum Select Alternative Fund	\$9,600,000	\$—	\$—	\$—	\$—	Prime Rate less 1/2%
Spectrum Global Perspective Fund	9,800,000	—	—	—	—	Prime Rate less 1/2%
Spectrum Equity Opportunity Fund	3,000,000	—	—	—	—	Prime Rate less 1/2%

m) Guarantees and Indemnifications – In the ordinary course of business, the Funds enter into contracts that contain a variety of indemnification provisions pursuant to which the Funds agree to indemnify third parties upon occurrence of specified events. The Fund's maximum exposure relating to these indemnification agreements is unknown. However, the Funds have not had prior claims or losses in connection with these provisions and believe the risk of loss is remote.

n) Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. INVESTMENT TRANSACTIONS

During the year ended February 28, 2011, the aggregate purchases and sales of investments (excluding short-term investments, swaps and futures contracts) were:

	<u>HCM Freedom Fund</u>	<u>Spectrum Select Alternative Fund</u>	<u>Spectrum Global Perspective Fund</u>	<u>Spectrum Equity Opportunity Fund</u>
Purchases	\$34,805,000	\$51,855,638	\$206,303,882	\$57,056,413
Sales	\$38,423,848	\$43,032,794	\$184,875,087	\$47,408,732

4. INVESTMENT ADVISORY AND OTHER AGREEMENTS

Investment Advisory Agreement: The Funds have entered into an investment advisory agreement with the Adviser. The Adviser receives a fee, computed daily and payable monthly, applied to each Fund's average daily net assets at the annual rates presented below:

HCM Freedom Fund	1.00%
Spectrum Select Alternative Fund	1.00%
Spectrum Global Perspective Fund	1.00%
Spectrum Equity Opportunity Fund	1.00%

In addition, the Adviser has entered into sub-advisory agreements with Horizon Capital Management, Inc. for the HCM Freedom Fund, and with Hundredfold Advisors, LLC for the Spectrum Select Alternative Fund, the Spectrum Global Perspective Fund and the Spectrum Equity Opportunity Fund (the "Sub-Advised Funds") whereby each sub-advisor will direct investment activities of their respective Funds. The Adviser pays, out of the management fees it receives from these funds, a fee for these sub-advisory services.

Operating Services Agreement: The Funds have entered into an Operating Services Agreement (the "Agreement") with the Adviser. Under the Agreement, the Adviser will be responsible for all expenses of the Trust except the following: management fees, distribution and/or service fees, acquired fund fees, taxes, leverage interest, dividends or interest on short positions, other interest expenses, brokerage commission and other extraordinary expenses outside the typical day-to-day operations of the Funds.

HCM Freedom Fund	0.55%
Spectrum Select Alternative Fund	0.55%
Spectrum Global Perspective Fund	0.55%
Spectrum Equity Opportunity Fund	0.55%

Distribution Expenses: Shares are subject to an annual Rule 12b-1 fee of 0.80% for the HCM Freedom Fund, and up to 1.00% of the average daily net assets for the Spectrum Select Alternative Fund, the Spectrum Global Perspective Fund and the Spectrum Equity Opportunity Fund.

Rafferty Capital Markets, LLC (the "Distributor") serves as principal underwriter of the Funds and acts as the Funds' distributor in a continuous public offering of the Funds' shares. There were no Rule 12b-1 fees retained by the Distributor for the six months ended February 28, 2010. The Distributor is an affiliate of the Adviser.

5. VALUATION MEASUREMENTS

The Funds follow authoritative fair valuation accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 – Quoted prices in active markets for identical securities

Level 2 – Evaluated price based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – Significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the credit risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's net assets as of February 28, 2011:

<u>Asset Class</u>	HCM Freedom Fund			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investment Companies — Fixed Income	\$24,669,175	\$—	\$—	\$24,669,175
Short-Term Investments	\$ 3,071,618	\$—	\$—	\$ 3,071,618

<u>Asset Class</u>	Spectrum Select Alternative Fund			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investment Companies — Equity	\$ 7,912,279	\$ —	\$—	\$ 4,772,760
Investment Companies — Fixed Income	\$42,666,482	\$ —	\$—	\$45,806,001
Short-Term Investments	\$ 6,479,197	\$ —	\$—	\$ 6,479,197
Other Financial Instruments*	\$ —	\$37,516	\$—	\$ 37,516

<u>Asset Class</u>	Spectrum Global Perspective Fund			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Equity Securities	\$ 2,201,863	\$ —	\$—	\$ 2,201,863
Investment Companies — Equity	\$27,055,472	\$ —	\$—	\$27,055,472
Short-Term Investments	\$29,480,183	\$ —	\$—	\$29,480,183
Other Financial Instruments*	\$ 101,075	\$(47,414)	\$—	\$ 53,661

<u>Asset Class</u>	Spectrum Equity Opportunity Fund			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Equity Securities	\$4,230,798	\$—	\$—	\$4,230,798
Investment Companies — Equity	\$6,761,704	\$—	\$—	\$6,761,704
Short-Term Investments	\$7,277,270	\$—	\$—	\$7,277,270
Other Financial Instruments*	\$ 175,901	\$—	\$—	\$ 175,901

For further detail on each asset class, see Schedule of Investments.

* Other financial instruments are derivative instruments not reflected in the Schedule of Investments, such as futures and swap contracts. Futures and swap contracts are valued at the unrealized appreciation (depreciation) on the instrument.

There were no significant transfers between Level 1 and Level 2 securities.

6. ADDITIONAL DISCLOSURES ABOUT DERIVATIVE INSTRUMENTS

The Funds follow authoritative standards of accounting for derivative instruments which establish disclosure requirement for derivative instruments. These standards improve financial reporting for derivative instruments by requiring enhanced disclosures that enables investors to understand how and why a fund uses derivatives instruments, how derivatives instruments are accounted for and how derivative instruments affect a fund's financial position and results of operations.

The Funds uses derivative instruments as part of its principal investment strategy to achieve its investment objective. For additional discussion on the risks associated with derivative instruments refer to Note 2. As of February 28, 2011, the Funds were invested in futures contracts and equity swap contracts.

At February 28, 2011, the fair value of derivatives instruments were as follows:

Asset derivatives¹		Equity risk	Total
Spectrum Select Alternative Fund	Swap contracts	\$153,296	\$153,296
	Total	\$153,296	\$153,296
Spectrum Global Perspective Fund	Futures contracts*	\$101,075	\$101,075
	Total	\$101,075	\$101,075
Spectrum Equity Opportunity Fund	Futures contracts*	\$175,901	\$175,901
	Total	\$175,901	\$175,901

¹ Statement of Assets and Liabilities location: Unrealized appreciation on swaps and variation margin receivable.

* Cumulative appreciation (depreciation) of futures contracts as reported in the Schedule of Investments. Only current day's variation margin, if any, is reported within the Statement of Assets and Liabilities.

Liability derivatives¹		Equity risk	Total
Spectrum Select Alternative Fund	Swap contracts	\$115,780	\$115,780
	Total	\$115,780	\$115,780
Spectrum Global Perspective Fund	Swap contracts	\$ 47,414	\$ 47,414
	Total	\$ 47,414	\$ 47,414

¹ Statement of Assets and Liabilities location: Unrealized depreciation on swaps.

Transactions in derivative instruments during the six months ended February 28, 2011, were as follows:

		Equity risk	Total
HCM Freedom Fund	Realized gain (loss)¹		
	Futures contracts	\$ (66,649)	\$ (66,649)
	Total realized gain (loss)	\$ (66,649)	\$ (66,649)
Spectrum Select Alternative Fund	Realized gain (loss)¹		
	Futures contracts	\$ 277,527	\$ 277,527
	Swap contracts	1,091,704	1,091,704
	Total realized gain (loss)	\$1,369,231	\$1,369,231
	Change in unrealized appreciation (depreciation)²		
	Swap contracts	11,331	11,331
Total change in unrealized appreciation (depreciation)	\$ 11,331	\$ 11,331	
		Equity risk	Total
Spectrum Global Perspective Fund	Realized gain (loss)¹		
	Futures contracts	\$ (163,749)	\$ (163,749)
	Swap contracts	457,991	457,991
	Total realized gain (loss)	\$ 294,242	\$ 294,242
	Change in unrealized appreciation (depreciation)²		
	Futures contracts	\$ 101,075	\$ 101,075
Swap contracts	(404,802)	(404,802)	
Total change in unrealized appreciation (depreciation)	\$ (303,727)	\$ (303,727)	
Spectrum Equity Opportunity Fund	Realized gain (loss)¹		
	Futures contracts	\$1,223,812	\$1,223,812
	Total realized gain (loss)	\$1,223,812	\$1,223,812
	Change in unrealized appreciation (depreciation)²		
Futures contracts	\$ 278,448	\$ 278,448	
Total change in unrealized appreciation (depreciation)	\$ 278,448	\$ 278,448	

¹ Statement of Operations location: Net unrealized gain (loss) on futures and swaps.

² Statement of Operations location: Change in unrealized appreciation (depreciation) on futures and swaps.

For the six months ended February 28, 2011, the volume of the derivatives held by the Funds were as follows:

	Quarterly average gross notional amounts		
	Long Futures Contracts	Short Futures Contracts	Long Equity Swaps Contracts
HCM Freedom Fund	\$ —	\$—	\$ —
Spectrum Select Alternative Fund	858,147	—	9,726,945
Spectrum Global Perspective Fund	6,751,179	—	2,009,298
Spectrum Equity Opportunity Fund	3,103,513	—	—

The Funds utilize this volume of derivatives as a substitute for investing in comparable positions in underlying securities and/or as a means to limit exposure of a Fund's position. During the six months ended February 28, 2011, the Spectrum Select Alternative Fund maintained a consistent investment in long equity swap contracts though more pronounced towards the end of the period. The Spectrum Global Perspective Fund and the Spectrum Equity Opportunity Fund investments in long equity swap contracts occurred closer to the beginning of the year. The three Spectrum Funds maintain investments in long futures contracts throughout the year.

7. NEW ACCOUNTING PRONOUNCEMENT

In January 2010, the Financial Accounting Standards Board issued an update to improve disclosure about fair value measurements. This update required additional disclosures regarding fair value measurements. Specifically, the amendment requires reporting entities to disclose a) the input and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements, for Level 2 or Level 3 positions, b) transfers between all levels (including Level and Level 2) will be required to be disclosed on a gross basis (i.e. transfers out must be disclosed separately from transfers in) as well as the reason(s) for the transfers and c) purchases and sales must be shown on a gross basis in the Level 3 rollforward rather than as one net number.

The effective date of this guidance is for interim and annual periods beginning after December 15, 2009; however, the requirement to provide the Level 3 activity for purchases and sales on a gross basis will be effective for interim and annual periods beginning after December 15, 2010. The Funds have disclosed the applicable requirements of the accounting standard in their financial statements.

8. SUBSEQUENT EVENT

The Funds follow authoritative standards for accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. These standards require the Funds to recognize in the financial statements the effects of all recognized subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. For nonrecognized subsequent events that must be disclosed to keep the financial statements from being misleading, the Funds are required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. The Funds have evaluated subsequent events through the issuance of the Funds' financial statements and have determined there is no impact to the Funds' financial statements.

Additional Information
(Unaudited)

HOUSEHOLDING

In an effort to decrease costs, the Funds intend to reduce the number of duplicate prospectuses, Annual and Semi-Annual Reports, proxy statements and other similar documents you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders we reasonably believe are from the same family or household. Householding begins once you have signed your account application. After such time, if you would like to discontinue householding for your accounts, please call toll-free at (800) 851-0511 to request individual copies of these documents. Once the Funds receive notice to stop householding, we will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

PRIVACY NOTICE

At the Direxion Funds, we are committed to protecting your privacy. To open and service your Direxion accounts, we collect and maintain certain nonpublic personal information about you, such as your address, phone number, social security number, purchases, sales, account balances, bank account information and other personal financial information. We collect this information from the following sources:

- Account applications or other forms on which you provide information,
- Mail, e-mail, the telephone and our website, and
- Your transactions and account inquiries with us.

We safeguard the personal information that you have entrusted to us in the following ways:

- As a general policy, only those employees who maintain your account and respond to your requests for additional services have access to your account information.
- We maintain physical, electronic, and procedural safeguards to insure the security of your personal information and to prevent unauthorized access to your information.

We do not disclose any nonpublic personal information about you or our former shareholders to anyone, except as permitted or required by law. In the course of conducting business and maintaining your account we may share shareholder information, as allowed by law, with our affiliated companies and with other service providers, including financial intermediaries, custodians, transfer agents and marketing consultants. Those companies are contractually bound to use that information only for the services for which we hired them. They are not permitted to use or share our shareholders' nonpublic personal information for any other purpose. There also may be times when we provide information to federal, state or local authorities as required by law.

In the event that you hold fund shares of Direxion through a financial intermediary, including, but not limited to, a broker-dealer, bank, or trust company, the privacy policy of your financial intermediary would govern how your nonpublic personal information would be shared with nonaffiliated third parties.

For questions about our policy, please contact us at (800) 851-0511.
